Best Formal spike

3-spike Championship

Best 1946 Introduction.

This great Gladiolus will be the Glad of the future. It has wonderful substance and keeping qualities and great propensity for opening florets. Flower heads will easily reach 34 inches with up to 26 buds. Grow tall, straight and fine under most trying conditions. (More complete information will be sent in my Fall Circular which will be mailed to you later).

SPIC AND SPAN  
Introductory Prices  
-----

Only a limited amount of stock will be sold this fall and it will pay anyone interested in growing good Glads to make an early start with Spic and Span, either for commercial or exhibition purposes. I am positive that it will easily surpass any Glad we now have for popularity both as an exhibition and as a commercial money-making flower.

1946-1947 Prices

Large.....\$5.00 each  
Medium..... 4.00 "  
Small..... 3.00 "

Bulblets sold only in combinations of 1 large  
bulb and 10 bulblets for \$10.00.

(Write for Wholesale Prices)

ORIENTAL PEARL

Let's not forget this wonderful Glad. It has been approved by large commercial Florida growers who write to say that "it grows large and beautiful" and are buying in large quantities. Some skeptics who were not so sure about it last year have changed their opinion and are also placing orders this year. I am positive that in another year, when more large bulbs are available, that it will become one of the most popular varieties.

(Prices same as Spic and Span)
